### phuet udom tambon health promotion hospital

#### CMU exchange program AY2023

It was such a wonderful experience for our exchange program from China Medical University to learn about agricultural health and safety in the responsible area of Phuet Udom Tambon Health Promotion Hospital, Pathum Thani. In this activity, exchange students, together with our Faculty of Public Health students, received a warm welcome from the sheriff of Lumlukka district at Wat Phuet Udom, learned organic farming by "Mor-Din", visited the Basketry Handicraft Promotion Centre, and Phuet Udom Tambon Health Promoting Hospital on September 5, 2023, from 08:00 to 16:00 (GMT+7).

We would like to express our gratitude to the Lumlukka District Health Office for valuable learning experiences.
