

TBS Successfully Renews EQUIS Accreditation

We are delighted to announce that Thammasat Business School (TBS) has successfully renewed its prestigious EQUIS accreditation for the next three years! This reaccreditation reaffirms our commitment to academic excellence, adherence to global standards, and ongoing advancement in business education.

From September 17–19, 2024, Assoc. Prof. Dr. Somchai Supattarakul, TBS dean, and the executive team welcomed the EQUIS Peer Review Team for a rigorous, two-and-a-half-day evaluation. The assessment encompassed all key aspects, including governance, strategy, academic programs, research, students, executive education, and faculty development. Special focus was placed on strengthening connections with industry, expanding internationalization, and advancing ethics, responsibility, and sustainability (ERS).

Throughout the review process, TBS demonstrated its strengths through insightful discussions with current students, alumni, corporate partners, faculty members, and other key stakeholders. The school effectively showcased its distinctive qualities, achievements, and continuous progress, supported by a comprehensive accreditation report and supplementary evidence, leading to this successful reaccreditation.
